2.2. Formal Action

2.2.1. 2023-02-0191-00ENG

Ms. Short provided a summary of the agreed order. The Agreed Order imposes the following sanctions:

- The Respondent's license will be suspended for 2 years, and Respondent is assessed a fine in the amount of \$5,000. The license suspension and fine are stayed contingent with the respondent complying with the following conditions:
 - Respondent will no longer design buildings or other structures that require the preparation of structural construction documents and/or calculations without a peer review of the work as described:
 - Respondent will enter into a peer review contract agreement for the two-year stayed suspension. The contract will be executed within 20 days of the signed Agreed Order and a copy of the finalized contract will be provided to the Board. The contract will include a requirement for a quarterly report, from the peer reviewer to the Board. The report will include projectspecific summaries clearly detailing the work reviewed and the progress made by respondent.
 - During the two-year stayed suspension, Respondent will submit to the peer reviewer, all structural engineering designs for peer review and successfully respond to peer review comments.
 - During the two-year stayed suspension, Respondent will not submit any structural designs for permitting prior to successful

peer review process.

- During the two-year stayed suspension, Respondent will provide to the Board, monthly, a list and status of projects under design which include preparation of structural construction documents and/or calculations.
- Respondent will be responsible for all costs related to the peer review contract.

A motion was made by Mr. Hendrickson, seconded by Mr. VanDeWege, to approve the proposed agreed order with Mr. Steven P. Morta. Ms. Lund abstained. Motion approved.

2.3. Disciplinary Report

Ms. Short provided a summary of the Disciplinary Report that was included in the board packet.

Hi Van,

The Board and our AAG have had several discussion relating to who makes the decision on which design professional is required for a project relating to the building codes. RCW 18.43 and WAC 196 do not define the specific areas of practice which require one over the other and it was determined that the jurisdiction permitting the project has the discretion to make that decision.

I will forward your request for review of the AG opinion to our advising attorney and our board executive committee for their review and direction.

Thank you,

Ken Fuller, PE Director 541.647.7265

I HAVE READ THE ATTORNEY GENERAL OPINION RELATING TO ENGINEERS DOING BUILDING DESIGN. I HAVE BEEN LICENSED MANY YEARS AND ROUTINELY DO BUILDING PLANS. THIS HAS BEEN TAKEN FOR NORMAL PRACTICE AND NOW SOME CITIES ARE QUESTIONING MY SUBMITTING BUILDING PLANS. AS AN ENGINEER I CAN DESIGN, DO CODE APPLICATION, STRUCTURAL AND SITE DRAINAGE ON PROJECT. CIVIL ENGINEERS ARE AS OR MORE COMPETENT IN THIS AREA. I WOULD LIKE TO SEE THE BOARD LOOK INTO THIS AB OPINION. AFTER DOING A LOT OF THIS TYPE OF WORK FOR THE LAST 50 YEARS IT APPEARS ENGINEERS ARE POSSIBLY BEING RESTRICTED.,

AMENDATORY SECTION (Amending WSR 21-22-092, filed 11/2/21, effective 12/3/21)

WAC 196-09-015 Complaint processing approach. The board processes complaints as follows:

(1) Anyone may submit a complaint against a licensed or unlicensed person alleging unprofessional conduct, unlicensed practice, or any other violations of chapter 18.43, 18.235, or 18.210 RCW. Complaints must be sworn to in writing and should include documentation of the alleged conduct.

(2) Upon receipt of the complaint, board staff will send an acknowledgment of the complaint to the complainant. If the subject of the complaint ("respondent") is a licensee, the board will notify the licensee respondent that a complaint was filed against them and include a copy of the complaint documents.

(3) Board staff will conduct an initial review of the complaint to determine whether the complaint raises a potential violation that would fall within the jurisdiction ((and purview of a potential board action.

(a) If board staff determines there are no violations)) of the board's regulatory powers. If the complaint does not raise a potential violation of law within the board's jurisdiction, the complaint is administratively closed after recommendation to the board, and the parties are notified of the closure.

((<u>(b) If board staff determines</u>)) <u>(4) If</u> there is a potential violation, a ((formal investigation)) <u>case</u> is opened, <u>a case file is</u> <u>created</u>, and an investigator and case manager are assigned. The respondent is notified, and a response to the allegations <u>in the com-</u> <u>plaint</u> is requested.

(((4))) <u>(5) The investigator will conduct a formal investigation</u> which may include requests for documentation and interviews of the complainant, respondent, and other associated parties. All records gathered during the investigation will be placed in the case file.

(6) When the investigation is complete, the case manager will review and evaluate ((all documentation or comments received (the investigation file),)) the case file with the investigator, and may ask additional questions of any party, or call for further investigation. When the case manager completes their review ((of the documentation)), they will draft a written report, which will ((result in either)) include facts, possible violations and recommendation on the disposition of the case which may be case closure, case closure with remedial counseling, ((expedited resolution,)) or issuance of ((statement of)) charges.

((-(5))) (7) The board may resolve a complaint or investigation at any time during this process.

(8) If a complainant requests reopening of a closed complaint or investigation, the board may only do so upon receipt of additional evidence or information in support of the original complaint that is relevant to the allegations. Submission of additional documentation does not guarantee the complaint or investigation will be reopened.

AMENDATORY SECTION (Amending WSR 22-17-121, filed 8/23/22, effective 9/23/22)

WAC 196-12-010 Licensure requirements for all applicants-Initial licensure and licensed in another jurisdiction. To become licensed as a professional engineer in the state of Washington, whether you are applying for an initial license or you possess a license in another jurisdiction, you must meet the requirements for experience and examinations described below, which need not be completed within the state of Washington:

(1) **Experience:** Have eight years of experience in engineering work of a character satisfactory to the board:

(a) The eight years may be a combination of education and practical work experience.

(b) The eight years of experience must be broad based and progressive to include gaining knowledge and comprehension of engineering subjects and applying engineering principles.

(2) **Examination requirements:** An applicant must have received passing scores on two stages of examination(s). One must test the fundamentals of engineering and the other must test the principles and practice of engineering. Exam results must be independently verified by a NCEES member board, or a board approved foreign jurisdiction.

(a) (i) Fundamentals of engineering examination must meet the following requirements:

(ii) The examination must be either:

(A) The National Council of Examiners for Engineering and Survey-

ing (NCEES) fundamentals-of-engineering (FE) examination; or
 (B) An equivalent examination as determined by the board which tests the applicant's knowledge of appropriate fundamentals of engineering subjects including mathematics and the basic sciences as defined in RCW 18.43.040 (1)(b)(i) and was administered by a board approved foreign jurisdiction.

(b) Fundamentals of engineering examination waiver shall be granted to an applicant licensed in another jurisdiction provided that:

(i) The professional engineering license is currently active and is in good standing.

(ii) The license is in a branch of engineering currently recognized by the board.

(iii) The applicant has been actively licensed in a board recognized licensing jurisdiction for a minimum of 10 years since receiving their initial professional engineering license.

(c) Principles and practice of engineering examination: The principles and practice of engineering (PE) examination must be the examination administered by NCEES.

(3) Additional licensure requirements: An applicant must meet the following additional requirements for licensure:

(a) Receive a passing score on the Washington engineer law review exam;

(b) Fully complete the application form to the satisfaction of the board; and

(c) Pay all applicable fees.

AMENDATORY SECTION (Amending WSR 22-17-121, filed 8/23/22, effective 9/23/22)

WAC 196-12-014 PE licensure application form. The board has a single application form for PE licensure in the state of Washington. This application form must be used by all applicants including those applying for the PE exam and licensure concurrently, those who have already taken the PE examination in another jurisdiction but have not obtained their initial license, and those who are already licensed in another jurisdiction and are seeking a license in Washington state.

(1) **Current PE examination and licensure applications**: Applicants who have not taken the PE examination will apply for both the PE examination and licensure on the application form. In order to be approved by the board to take the PE examination, the applicant must complete all sections of the form, except the date and location of taking the PE exam and must otherwise meet all of the qualifications for licensure. Upon passing the PE examination, the applicant is also qualified for licensure.

Applications for PE examination and licensure must be received at the board's address with the applicable fee by the date posted on the board's website.

(2) All other applicants for PE licensure in Washington state. All other applicants applying for licensure in the state of Washington, including those who are licensed in another jurisdiction or have passed the Principles & Practices of engineering examination but have not obtained their initial license, must complete all sections of the application form provided by the board.

(((a))) <u>(3)</u> All applicants must provide information on the application form that demonstrates they meet all requirements for licensure. This includes work experience requirements, education requirements, and examination requirements as detailed in WAC 196-12-010, 196-12-020, and 196-12-021; and RCW 18.43.040.

 $((\frac{b}{b}))$ <u>(4)</u> All applicants must provide the following documents to verify $((\frac{b}{b}))$ <u>the work experience</u>, education, and examination requirements:

(a) A completed NCEES record transmitted to the Washington board; or

(b) Provide all the following documents:

(i) Education experience records - Official transcripts or the equivalent, showing all grades and degrees.

(ii) Work experience records - Completed form titled "Professional Engineering Experience Verification" which includes not only work experience information and details but also verifications of work experience by supervisors or other verifiers, per RCW 18.43.050.

(iii) Verification of licensing in any other jurisdiction(s), if any.

(iv) Verification of passing the FE examination or its equivalent (if any) <u>or verification of FE waiver</u> and verification of passing the PE examination.

AMENDATORY SECTION (Amending WSR 22-17-121, filed 8/23/22, effective 9/23/22)

WAC 196-12-020 Work experience records. The following criteria will be used in evaluating an applicant's experience record:

(1) Work experience will be approved based on a demonstration of competency and progressive responsibility in the analysis, synthesis and evaluation of engineering concepts and data, under the direct supervision of a person authorized by chapter 18.43 RCW or other applicable statute to practice engineering. Under the general guidance and direct supervision of an authorized professional, the applicant must be in a position of making independent judgments and decisions in the following experience areas:

(a) Formulating conclusions and recommendations;

(b) Identifying design and/or project objectives;

(c) Identifying possible alternative methods and concepts;

(d) Defining performance specifications and functional requirements;

(e) Solving engineering problems;

(f) Interacting with allied professionals;

(g) Effectively communicating recommendations and conclusions;

(h) Demonstrating an understanding and concern for energy/environmental considerations, socioeconomic impact, and sustainability of resources.

(2) Engineering teaching may be considered satisfactory experience up to a maximum of two years at the discretion of the board.

(3) Applied research is considered satisfactory experience when it meets the following conditions:

(a) The research must be conducted under the guidance or supervision of a professional engineer. For the purposes of this subsection, guidance or supervision means being cognizant of all applicable aspects of the work and a reviewer of all applicable reporting documentation.

(b) The principal result(s) of the research are in a published report or a recognized engineering journal article in which the applicant is the primary author or the work is adequately documented and available to the board upon request.

(4) For military engineering experience to be considered acceptable, it should be similar to engineering experience that would be gained in a nonmilitary environment as defined in subsection (1) of this section, and such experience must be verified.

(5) <u>Experience credit for an undergraduate degree cannot be</u> <u>earned concurrently with work experience credit. No more than one year</u> <u>of experience will be granted for one calendar year.</u>

(6) Work experience gained while enrolled in a postgraduate engineering program may be considered satisfactory experience at the discretion of the board. No more than one year of experience will be granted for one calendar year.

(7) All work experience gained must be under the direct supervision of a professional engineer authorized to practice under chapter 18.43 RCW or an individual authorized by another statute to practice engineering. AMENDATORY SECTION (Amending WSR 22-17-121, filed 8/23/22, effective 9/23/22)

WAC 196-12-021 Education <u>as</u> experience ((records)). Education may be counted towards the eight years of experience requirement <u>specified in WAC 196-12-010.</u> Official transcripts must be sent to the board's office for review and approval.

(1) A baccalaureate degree in engineering in a program accredited by the accreditation board for engineering and technology (ABET) is equivalent to four years of required experience. Satisfactory completion of each year of such an approved program is equivalent to one year of experience.

(2) A degree in engineering from a non-ABET accredited engineering program may be given four years at the discretion of the board. The board will determine if the degree is satisfactory in awarding years of experience.

(3) No more than one year may be granted for postgraduate engineering courses.

(4) A baccalaureate degree in a nonengineering program will be given a maximum of two years of experience.

(5) An associate degree in engineering from an approved program may be equivalent for up to two years of experience.

(6) Sporadic engineering related education may be considered as experience by the board at its discretion. For example, one or two engineering classes taken at a time, often at different schools; and/or classes taken through industry or the military may count as experience. In evaluating this type of education, the board will compare the courses taken to college coursework in a baccalaureate of engineering degree program.

(a) A number of foreign degree programs are included in mutual recognition agreements entered into by ABET with other accrediting authorities. Applicants with a degree from one of these programs will be evaluated by the board.

(b) Applicants having engineering degrees from programs in countries that are not ABET accredited will be required to have their transcripts evaluated by a transcript evaluation service approved by the board. This evaluation will be performed at the applicant's expense, and the applicant will be responsible for submitting all necessary information to the evaluation service. The board will use the evaluation to determine if the foreign degree is satisfactory to the board to award years of experience.

(c) An applicant with an undergraduate degree from a foreign program that is not ABET accredited, ((can waive the requirement for a degree evaluation)) is not required to have their undergraduate degree evaluated if they have a graduate degree in engineering from a school that has an ABET accredited undergraduate engineering degree program in the same discipline as the graduate degree. Years of experience will be determined at the discretion of the board.

For maximum experience credit the applicant must have their non-ABET accredited undergraduate degree from a foreign program evaluated by a transcript evaluation service approved by the board.

(7) Any other education may be taken into account and evaluated on its merits by the board.

(((8) Work experience gained between semesters or quarters or during summers while enrolled in an approved curriculum may be counted as experience at the discretion of the board.))

AMENDATORY SECTION (Amending WSR 01-11-102, filed 5/21/01, effective 6/21/01)

WAC 196-33-100 Purpose and definitions. (1) The purpose of chapter 196-33 WAC is to provide further guidance to licensees with respect to the accepted professional conduct and standard of practice, as indicated in chapter 18.210 RCW, and generally expected of those practicing professional on-site wastewater treatment system designing. These standards shall apply to all persons authorized to practice onsite wastewater treatment system design services, whether licensed professional designers under chapter 18.210 RCW, or licensed professional engineers under chapter 18.43 RCW. The board recognizes the need to establish standards with which to measure the performance of practitioners. The board further recognizes, as a minimum standard, those standards for the design of on-site wastewater treatment systems required by chapter ((246-272)) <u>246-272A</u> WAC, promulgated by the state board of health in accordance with their authority granted in RCW 43.20.050. It is the intent of the board to introduce guidance and direction through these rules, together with recommended standards and quidance documents.

(2) The word "licensee" in these rules of professional practice shall mean any person holding a license issued in accordance with chapter 18.210 RCW, or chapter 18.43 RCW, issued by this board.

(3) All licensees are charged with having knowledge of and practicing in accordance with the provisions of these rules of professional practice.

(4) Should there be any conflict in the guidance provided in this chapter and the intent of the language of chapter 18.210 RCW, the intent of the language in chapter 18.210 RCW prevails.

(5) Terms used in this chapter shall have the same definition as provided in chapter 18.210 RCW.

AMENDATORY SECTION (Amending WSR 07-10-127, filed 5/2/07, effective 6/2/07)

WAC 196-33-200 ((Fundamental[s])) Fundamental canons and guidelines for professional practice and conduct. The specialized and complex knowledge required for on-site wastewater treatment system design makes it imperative that licensees exercise a standard of care that holds paramount the protection of the health, safety, environment, property, and welfare of the public.

(1) Licensees are expected to apply the skill, diligence and judgment required by the professional standard of care, to achieve the goals and objectives agreed with the client or employer, and are expected to promptly inform the client or employer of progress and changes in conditions that may affect the appropriateness or achievability of some or all of the goals and objectives of the client or employer. Licensees are obliged to:

(a) Be honest and fair in their dealings, and to conform to the relevant laws and codes of the jurisdiction in which they practice.

(b) Be able to demonstrate that their final products and work plans adequately consider the primary importance of protecting the safety, health, property, and welfare of the general public. (c) Approve or seal only documents prepared by them or under their direct supervision.

(d) Inform their clients or employers of the possible consequences, when an overruling or disregarding of the licensee's professional judgment may threaten the safety or health of the public. If in the judgment of the licensee an imminently dangerous situation persists, they shall promptly inform appropriate authorities.

(e) Inform the board in writing, citing specific facts to which the licensee has direct knowledge, if they have knowledge or reason to believe that another person or firm may be in violation of any of the provisions of chapter 18.210 RCW or these rules of professional conduct, and cooperate with the board in furnishing such further information or assistance as may be required.

(2) Licensees shall be competent in the technology, and knowledgeable of the codes, regulations, and guidelines applicable to the services they perform.

(3) Licensees shall be qualified by education and/or experience in the technical area of on-site wastewater treatment system design applicable to services performed and the technologies utilized.

(4) Licensees may accept primary contractual responsibility requiring education and/or experience outside their own area of competence, provided their services are restricted to those phases of the project in which they are qualified.

(5) Licensees shall not affix their signatures or seals to any plan or document dealing with subject matter in which they lack competence by virtue of education and/or experience.

(6) Licensees shall act in professional matters for each employer or client as faithful agents or trustees.

(7) Licensees shall be objective and truthful in professional documents, reports, statements, or testimony. They shall include all relevant and pertinent information in such reports, statements or testimony. They shall not knowingly falsify, misrepresent or conceal a material fact in offering or providing services to a client or employer.

(8) Licensees shall avoid all known or potential conflicts of interest with their employers or clients and shall promptly inform their employers or clients of any business association, interest, or circumstances, which could influence their judgment, or the quality of their services.

(9) Licensees shall only accept compensation from one party for services on a project, unless the circumstances are fully disclosed to and agreed to, by all interested parties.

(10) Licensees shall not solicit or, accept gratuities, directly or indirectly, from contractors, their agents, or other parties dealing with their clients or employers in connection with work for which they are responsible.

(11) Licensees shall advise their employers or clients when, as a result of their studies, they believe a project will not achieve the goals established with the client.

(12) Licensees shall not use confidential information coming to them in the course of their assignments as a means of making personal profit if such action is adverse to the interests of their clients, employers or the public.

(13) Licensees employed full-time shall not accept professional employment outside of their regular work or interest without the knowledge and consent of their employers.

(14) Licensees shall offer their professional services in a truthful, objective, and professional manner that results in public trust in the integrity of the on-site design profession.

(15) Licensees shall not request, propose or accept professional commissions on a contingent basis under circumstances in which their professional judgments may be compromised.

(16) Licensees shall not offer or accept money, goods or other favors as inducement to receive favorable consideration for a professional assignment or as an inducement to approve, authorize or influence the granting of a professional assignment. This shall not preclude the securing of salaried positions through employment agencies.

(17) Licensees shall negotiate contracts for professional services fairly and on the basis of demonstrated competence and qualifications for the type of professional service required.

(18) Licensees shall not falsify or permit misrepresentation of their academic or professional qualifications or experience.

(19) Licensees shall not advertise professional services in a way that is false or misleading as to the qualification, experience, or capability of the licensee.

(20) Public statements by licensees regarding the practice of onsite wastewater treatment systems design shall be objective and truthful.

(21) Licensees should endeavor to extend the public knowledge of on-site wastewater treatment system design and shall not participate in the dissemination of untrue, unfair, or exaggerated statements regarding the profession.

(22) Professional reports, statements, or testimony made to the public or public entities shall include all relevant and pertinent information to support conclusions or opinions expressed.

(23) Licensees when serving as an expert witness shall express an on-site design opinion only when it is founded upon adequate knowledge of the facts, upon a background of technical competence, and upon hon-est conviction.

(24) Licensees shall issue no statements, criticisms, or arguments regarding on-site design matters, which are inspired or paid for by interested parties, unless they indicate on whose behalf the statements, are made.

(25) Licensees shall continue their professional development throughout their careers, and shall provide opportunities for the professional development of those individuals under their supervision.

(26) Licensees shall respond to any legal request for information by the board and/or appear before the board in the time frame established by the board or their staff designee.

(27) In addition to the requirements of RCW 18.210.020 and this chapter, the following acts are contrary to the standard of practice for individuals authorized to practice under this chapter and constitute unprofessional conduct in the practice of on-site wastewater treatment system designing:

(a) Duplicating, copying, removing or attempting to remove materials from the custody and control of the board that are exempt from inspection or copying under chapter 42.17 RCW when such duplication, copying or removal was not expressly authorized by the board.

(b) Failure to notify a client or employer that a project could not be completed or was not completed.

(c) Failure to respond to client inquiries under conditions which endanger the health, safety, or welfare of the public or the client or the client's property. (d) Failure to respond to inquiries from other on-site practitioners or governmental agencies regarding differences in your respective work products, under conditions which endanger the public health, safety, or welfare or the health, safety, or welfare of the client or the client's property.

(e) Any act, statement or behavior that harasses, intimidates or retaliates against anyone who has provided information, assistance or testimony in connection with any board inquiry, investigation, hearing or other proceeding.

(f) Disorderly, discriminatory or abusive behavior or statements which are significantly disruptive to the normal activities of a place of business or public view, where such behavior would give anyone witnessing the act a reasonable belief to be concerned for their safety or well-being.

AMENDATORY SECTION (Amending WSR 01-11-102, filed 5/21/01, effective 6/21/01)

WAC 196-33-300 Providing direct supervision. Direct supervision ((is a combination of activities by which)) by a licensee ((main-tains)) is described as follows:

(1) Maintaining control over those decisions that are the basis for the findings, conclusions, ((analysis)) analyses, rationale, details, and judgments that are embodied in the development and preparation of on-site plans, specifications, reports, and related activities. ((Direct supervision explains the relationship between the licensee and those persons who are performing the work controlled by the licensee. Direct supervision))

(2) Requires providing personal direction, oversight, inspection, observation, and supervision of the work being certified.

((Communications between the licensee and those persons who are performing the work)) (3) These actions may include, but are not limited to((, use of any of the following ways)): Direct face-to-face communications; written communications; U.S. mail; electronic mail; facsimiles; telecommunications, or <u>communication through</u> other current technology((: Provided, that the licensee retains, maintains, and asserts continuing control and judgment.

Nothing in this section shall be construed to relieve the licensee from the responsibility of final decision making and plan stamping)).

(4) Contractual or employment relations must be in place between the licensee and unlicensed preparer to qualify as direct supervision.

(5) Mentoring is not direct supervision. Reviewing documents as defined by WAC 196-33-500, after preparation without involvement in the design and development process as described above cannot be accepted as direct supervision.

AMENDATORY SECTION (Amending WSR 01-11-102, filed 5/21/01, effective 6/21/01)

WAC 196-33-500 Seal and stamp usage. The use of the seal/stamp shall be in accordance with chapters 18.43 and 18.210 RCW, or as otherwise described herein:

(1) Final documents are those documents that are prepared and distributed for use for construction, final agency approvals, use by clients, and record drawings or as-builts for filing with public officials where such record drawings or as-builts are required to be prepared by the licensee. Any final document must contain the seal/stamp, ((license expiration date and)) signature, and date of signature of the licensee who prepared or directly supervised the work. For the purpose of this section, "document" is defined as plans, designs, specifications ((and)), reports, and as-built documents prepared by the licensee.

(2) Preliminary documents are those documents not considered final as defined herein((τ)) but are released or distributed by the licensee. Preliminary documents must be clearly identified as "PRELIMINARY" or contain such wording so it may be differentiated from a final document. Preliminary documents ((shall)) <u>must</u> be stamped ((and dated)), but need not be signed <u>or dated</u> by the licensee.

(3) Plan sets: Every page of a plan set must contain the seal/ stamp and signature of the licensee(s) who prepared or who had direct supervision over the preparation of the work, and date of signature.

(a) Plans/designs containing work prepared by or under the direct supervision of more than one licensee shall be sealed/stamped, signed, and dated by each licensee and shall clearly note the extent of each licensee's responsibility.

(b) ((As provided for in subsections (1) and (2) of this section, each page of a plan set must contain the seal/stamp of the licensee who prepared or who had direct supervision over the preparation of the work and may contain the signature of the licensee depending on whether the plan set is final or preliminary.

(c)) Plan/design sheets containing and/or depicting background and/or supporting information that is duplicated from other plans need only be sealed/stamped by the licensee(s) who prepared or was in direct supervision of the design ((on that plan sheet. Whenever possibler)). The origin of the background information ((should)) shall be noted on the plan sheet.

(((d))) (c) All design revisions to final plan/design sheets shall ((be performed by qualified licensees and shall be done in accordance with the provisions of RCW 18.210. The revised plan/design sheets shall)) clearly identify on each sheet((;)) the revisions made and shall contain the name and seal of the licensee, and signature of licensee with the date the ((revision)) sheet was ((made)) sealed.

(4) Specifications: Specifications that are prepared by or under the direct supervision of a licensee shall contain the seal/stamp ((and)), signature of the licensee, and date of the signature. If the specifications prepared by a licensee are a portion of a bound specification document that contains specifications other than that of an on-site design nature, the licensee need only seal/stamp that portion or portions of the documents for which the licensee is responsible. Nothing herein should be construed to require that each page of ((a))an on-site design specification be sealed/stamped by the licensee. (5) Document review: When a licensee is required to review work prepared by another licensed on-site designer, the reviewing licensee shall fully review those documents ((and)). If required, the licensee shall prepare a report that discusses the findings of the review with any supporting calculations and sketches. The reviewing licensee would then seal/stamp ((and)), sign, and date the report. The report would make reference to and/or be attached to the subject document(s) reviewed.

(6) Nothing in this section requires the stamping of plans/ designs by employees of local health districts acting in ((their)) that capacity as on-site inspectors/reviewers, whether or not licensed under chapter 18.210 RCW.

Policy No. 36

STATE OF WASHINGTON BOARD OF REGISTRATION FOR PROFESSIONAL ENGINEERS AND LAND SURVEYORS

P.O Box 9025, Olympia WA 98507-9025

ORGANIZATION AND FUNCTION OF THE BOARD COMMMITEES

The Board establishes committees to carry out specific assignments on behalf of the Board. Membership on each committee, within the suggested guidelines below, is made by appointment of the Board chair. Committees may not act on behalf of the Board. The Committee chair will report to the Board after every committee meeting, presenting any proposed actions to the Board for discussion and vote. No Committee may be composed of greater than three (3) Board members.

I. <u>EXECUTIVE COMMITTEE:</u>

A. Board Membership:

- Board Chair
- Board Vice-Chair
- Immediate Past Board Chair, if available, else a Past Board Chair still serving upon the Board, appointed by the current Board Chair.

B. Staff:

- Director and/or Deputy Director
- Executive Assistant
- C. Basic areas of responsibility:
 - Develop and monitor the Board budget activity including allotments, unusual expenditures, fee setting and fund balance.
 - Develop and monitor ongoing Strategic Plan and Outreach Program of the Board. Present proposed Budget, Strategic Plan and Outreach Programs to the Board for discussion and approval.
 - Define emerging strategic assignments for Director.
- Make ongoing and annual performance evaluation of Director subject to input and approval by the Board.
 - Provide input to the Director about Board policy and interpretations on all topics related to the Board where there is considerable need for accuracy and management of risks.
 - Perform periodic review of existing laws, rules and policy that have or can be related to the Board's strategic agenda or activities promulgated by the NCEES.

When necessary or appropriate, develop report and proposed changes for review and approval by the Board.

- Provide the Board's position on any legislation that has impact upon the Board's business and/or operations, subject to review and approval by the Board.
- Participate in any review or decision that constitutes a statement of policy or interpretation of the Board. Develop recommendation for Board discussion and approval where appropriate.

II. <u>PRACTICE COMMITTEE:</u>

A. Recommended membership (total of 3 board members):

- 1 land surveyor member (minimum)
- 1 engineer member (minimum)
- B. Staff:
 - Investigations Manager
 - Deputy Director
- C. Basic areas of responsibility:
 - Monitor active complaints received, status of each complaint in the complaint process and administrative complaints closed.
 - Review any inquiries seeking interpretations on the practice of engineering, land surveying or on-site wastewater. Consult with AAG and obtain input from Board where appropriate.

Note: Use caution when responding to any inquiry seeking "interpretations" of the law, particularly as it relates to the "practice of" engineering, land surveying or on-site wastewater design.

- Perform periodic review of existing laws, rules and policy related to professional practice and forward recommendations to the Board.
- Monitor compliance with Board orders. Forward recommendations to the Board for decision on any valid requests for modifications to existing board orders.
- Perform other assignments referred to the committee by the Board or Board chair.

III. EXAM/QUALIFICATION COMMITTEE:

- A. Recommended membership (total of 3 board members):
 - 1 land surveyor member (minimum)
 - 1 engineer member (minimum)
- B. Staff:
 - Licensing Lead
 - Director
- C. Basic areas of responsibility:

- Conduct review of applications requiring consideration of special conditions including foreign based experience or a combination of experience and education that does not follow typical practice, licensee supervision or completion of educational credits, and those that staff recommend for evaluation.
- Review any inquiries seeking interpretations on the laws and rules defining conditions for eligibility of licensure in engineering, land surveying or on-site wastewater designing. Consult AAG and Board as appropriate prior to responding.
- Perform periodic review of existing laws, rules and policy related to professional licensure and forward recommendations to the Board.
- Review exam performance statistics and recommend a cut-score to the Board for state prepared licensing examinations.
- Review examination information from NCEES and make recommendations to the Board as appropriate.
- Monitor status reports on licensing and examination activity.
- Act as members of Exam Misconduct Committee, as needed.
- Perform other assignments referred to the committee by the Board or Board chair.

IV. SURVEYING COMMITTEE:

- A. Recommended membership (total of 3 board members):
 - 2 land surveyor members
 - 1 engineer member

B. Staff:

- Director and/or Deputy Director
- C. Basic areas of responsibility:
 - Conduct review of inquiries about interpretations on the scope of practice for land surveying in Washington. Consult AAG and Board for input as necessary.
 - Perform periodic review of existing laws, rules and policy related to professional survey practice and forward recommendations to the Board.
 - Perform periodic review of state PS examination content, manage item bank Recommend cut score of state specific PS examination to EQC or the Board.
 - Conduct periodic evaluation of curriculums for land surveying programs and determine level of credit that graduates of programs can obtain toward licensure.
 - Perform other assignments referred to the committee by the Board or Board chair.

AD HOC COMMITTEES

Ad hoc committees may be established by the Board to study unique issues related to the objectives of the Board. Such committees may be comprised of board members, board

Policy No. 36

staff members, stakeholders or any combinations of those participants as deemed necessary by the Board.

STRUCTURAL COMMITTEE:

- A. Recommended membership:
 - 2 structural engineer members
 - 1 additional board member
- B. Staff:
 - Director
 - Licensing Lead or other staff as appropriate.
- C. Basic areas of responsibility:
 - Conduct review of all inquiries about interpretations on the scope of practice for structural engineering and significant structures in Washington. Consult with AAG and seek Board input as appropriate.
 - Perform periodic review of existing laws, rules and policy related to professional structural engineering practice and forward recommendations to the Board.
 - Monitor SE exam performance from NCEES.
 - Perform other assignments referred to the committee by the Board or Board chair.

ON-SITE ADVISORY COMMITTEE

- A. Recommended membership:
 - 1 board member (PE)
 - 4 on-site professionals
 - 3 designers
 - 1 inspector / certificate of competency holder

B. Staff:

- Director and/or Deputy Director
- Licensing Lead
- C. Basic areas of responsibility:
 - Perform periodic review of existing laws, rules and policy related to the on-site profession and forward recommendations to Exam Qualifications Committee or Board.
 - Perform periodic review of state specific on-site designer licensing examination content development and recommend cut score to Exam Qualifications Committee.
 - Conduct review of inquiries about interpretations on the scope of practice for onsite design in Washington. Consult AAG and Board for input as necessary.

Hi Ken,

I have attached BORPELS' August 2023 financial status and projection reports. The information in the reports shows that **BORPELS is in excellent financial condition.** At this time, I project the agency will end the biennium with about \$1.76 million in its operating account, Fund 024. Additionally, the agency will underspend its appropriation by about \$520k.

REVENUE

For the period of July 2023 – August 2023, BORPELS generated \$307k in revenue vs. \$325k during the same period last biennium. This represents a reduction of about 5.5% relative to last biennium. I am currently projecting that BORPELS will generate about \$4.32 million in revenue this biennium.

I had originally planned to project an increase of 5% over last biennium, but I decided to hold biennium 2023-25 revenue equal to 2021-23 because of the reduction so far this biennium.

EXPENSES

- I included the cost an Administrative Assistant 3 in the projection because you had mentioned that you might hire one more employee. Are you still planning to hire someone?
- Are you planning to spend any money this biennium on outreach modules, question development, or OS adhoc and exam? I added in some misc costs to the projection, but I didn't specifically include any of these items.
- Are you planning to make any other purchases I may not be aware of?

Thanks,

Paul Bitar
